Special Issue

Advances in Bone and Soft Tissue Sarcoma Surgery

Message from the Guest Editors

The surgical management of bone and soft tissue sarcomas continues to evolve through advances in imaging, surgical planning, resection techniques, and reconstruction, alongside closer integrations with systemic therapy and radiotherapy. Achieving durable local control while preserving function and quality of life remains a central challenge, requiring individualized care within multidisciplinary teams. This Special Issue of *Cancers*, "Advances in Bone and Soft Tissue Sarcoma Surgery," aims to bring together original research and comprehensive reviews addressing current developments, persistent challenges, and future directions in the field. We welcome contributions on surgical margins, limb salvage, pelvic and spinal sarcoma surgery, reconstructive strategies, emerging technologies, and the management of recurrent disease, with the shared goal of improving outcomes for patients with these rare and complex malignancies.

Guest Editors

Prof. Dr. Levent Eralp

Orthopedic Oncology and Complex Extremity Reconstruction, IJC—International Joint Center, Maslak Acibadem Hospital, Istanbul, Turkey

Assis. Prof. Dr. Nikolaos A. Stavropoulos

Second Department of Orthopaedic Surgery, School of Medicine, National and Kapodistrian University of Athens, "Konstantopouleio" General Hospital, 14233 Athens, Greece

Deadline for manuscript submissions

31 May 2027

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok
Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology).
